This book contains the official averages of all league bowlers for the 2016-17 season as furnished to the Greater Des Moines USBC Association by your league secretary's.

To find a bowlers average, just follow the alphabetical list of names. The BA, WBA and YABA averages are in the book.

The first column will tell you the bowlers average, the second column is the number of games bowled in the league and the third column is the league that the bowler bowled. In order to have an established average listed in this book, a bowler must have bowled 21 games or more by season's end.

If your secretary did not submit a final average sheet for the 2015-16 season, or did not submit an individual sanction application, your name may not appear in this book. Summer Averages are excluded.
